STAINLESS STEEL FLEX HOSE

Where durability meets flexibility.

Our stainless steel hoses are engineered for superior performance, offering exceptional mechanical strength that stands up to rigorous use and accidental damage. Ideal for a variety of industrial applications, they excel in transmitting fluids at high temperatures and under high pressure, making them perfect for demanding environments. With a selection available in 304, 316, and 321 stainless steel grades, and options for PTFE lining, our hoses cater to a wide range of needs, including the safe handling of harmful or corrosive fluids.

Whether for industrial machinery, HVAC systems, or fluid transport, our stainless steel flex hoses combine resilience with flexibility, ensuring reliability and longevity in your operations.

- Mechanical Strength
- Thermal Performance
- Safety in Fluid Transmission
- Ultra High Pressure Teflon
- 304, 316 & 321 Stainless Steel
- Available with PTFE Lining

INDUSTRIAL PVC HOSE

Tailored for versatility and durability in a variety of industrial settings. These hoses are designed to meet the challenging demands of different applications, from mining operations to fluid delivery systems. Our collection includes Mining Hose, PVC Suction and Delivery Hose, and specialized options like Layflat Hose and Helisteel Non-Toxic Hose. Each hose is crafted to offer robust performance in handling water, oils, gases, and other materials, with features such as clear PVC for visibility, Rock Drill Hose for heavy-duty use, and Anti-static Hose for safety in sensitive environments. Our PVC hoses are also available in fuel, LPG, and chemical resistant varieties, ensuring adaptability to your specific needs. Whether for construction, manufacturing, or agricultural applications, our Industrial PVC Hoses are engineered to provide reliable and efficient solutions for your operational challenges.

- ⚙ Mining Hose
- ⚙ PVC Suction & Delivery Hose
- ⚙ Layflat Hose
- ⚙ Helisteel Non-Toxic
- ⚙ Clear PVC
- ⚙ Rock Drill Hose
- ⚙ Antistatic Hose
- ⚙ Heliflex Ducting
- ⚙ Fuel Hose
- ⚙ LPG Hose
- ⚙ Fuel Resistant Hose
- ⚙ Non-Conductive Hose

INDUSTRIAL RUBBER HOSE

Each hose in our range is designed for durability, flexibility, and safety, ensuring optimal performance in your industrial operations.

Our selection caters to a wide array of industrial needs, encompassing everything from Mining Hose and Oil Resistant Mining Hose for the rugged demands of the mining sector, to Furnace Coolant Hose and Welding Hose designed for high-temperature applications.

We offer Fuel Hoses for safe fuel transport and Cementation Hoses for construction needs. Our Beverage Hose, Milk and Fatty Foods Hose are ideal for the food and beverage industry, maintaining safety and hygiene standards.

For applications involving steam and chemicals, we provide Saturated Steam Hoses and Chemical Suction and Delivery Hoses. Additionally, our Hydraulic Hoses, ranging from 1-8 wire, are engineered for high-pressure fluid dynamics.

⚙ Mining Hose

⚙ Oil Resistant Mining Hose

⚙ Furnace Coolant Hose

⚙ Welding Hose

⚙ Fuel Hose

⚙ Cementation Hose

⚙ Beverage Hose

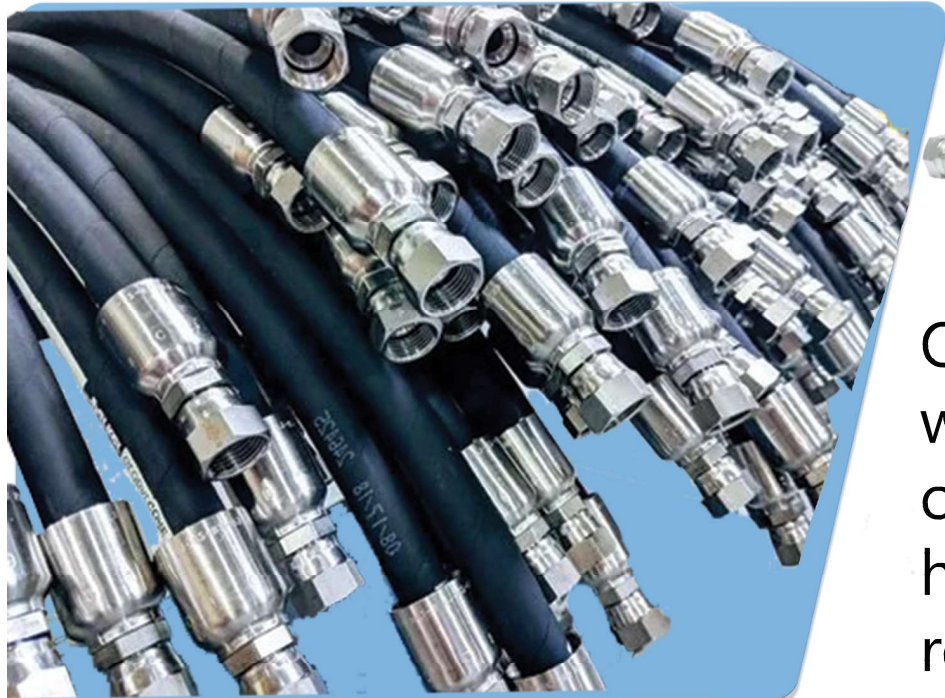

⚙ Saturated Steam Hose

⚙ Milk & Fatty Foods Hose

⚙ Chemical Suction & Delivery Hose

⚙ Hydraulic Hose (1-8wire)

HOSE ASSEMBLIES

Our fully equipped workshop is capable of delivering any hose assembly required by our customers' operations.

Short lead times are one of our core values, ensuring efficient expediting of orders and fast turnaround times for our customers!

COUPLINGS

STORZ

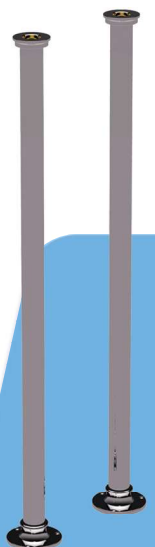

Welcome to our Couplings section, where you'll find an extensive selection of high-quality coupling solutions tailored to a wide range of industrial applications. Our inventory includes versatile Storz couplings, reliable Camlocks, and an assortment of flanged adapters & couplings designed to ensure secure and efficient connections. We also offer a variety of BSP/JIS couplings, standpipes, and metric hose ends to suit diverse requirements. Our sleeves and fittings are crafted for durability and ease of use, ensuring a seamless fit with your existing systems. Whether you're looking for quick-connect solutions or robust, long-lasting couplings, our range is designed to meet the demanding standards of modern industry with precision and reliability.

HOSE & CABLE PROTECTION

LavaGuard

LavaGuard Wrap

Thickness 0.5-3.0mm
Width 25-1200mm

LavaGuard Silicone-Impregnated Sleeve

Diameter: 10-250mm

LavaGuard Stitched-Sleeve

Double Stitched Sleeve
25-300mm Diameter

Our Flagship Product for Hose and Cable Protection manufactured from woven Basalt Fibre, industry proven, versatile and able to withstand a constant 800°C (with an intermittent resistance of up to 1300°C) this phenomenal product has proven to be a firm favourite amongst our steel producing clients. Not only does LAVA GUARD extend the life of hoses and cables in extreme applications but LAVA GUARD does not require any specific disposal protocols and importantly to the end user does not itch! Additionally our LAVA GUARD is also rated to -260°C and has found favour in nitrogen tank and piping applications.
